Lemon Meringue
TL-55

Ballet Slipper
TL-58

Porcelain White
TL-07

So White
TL-01

DREAM IN COLOR.

Much like our shutters, color has a way of transforming a home. From colors that have been woven into the fabric of our history, such as Antique Bottle Green and Country Red to more contemporary ones like Ballet Slipper and Blue Topaz, we know you'll find a hue that compliments you and your home.

For those finicky sorts who would rather choose a color from their own imagination, from an existing shutter, or from a trim detail on their home, we can perfectly match your color. It's that simple. Better yet, custom color is free of charge.

Shutters may predate modern technology. But our painting process is truly state-of-the-art. Our meticulous artisans blend old world craftsmanship with cutting-edge technology. While some shutter companies use saw horses and paint buckets, Timberlane opts for innovative overhead paint lines and curing ovens. Temperature and humidity are perfectly balanced to create a harmonious environment where the finish has the look and feel of a fine piece of furniture.

The Timberlane painting technique is nearly impossible to replicate anywhere – although other shutter companies may stake claim to a superior method. We chalk up their feeble attempts to marketing gibberish. If you would like to do your own comparison, we will gladly send you a painted shutter sample, free of charge. Timberlane Shutters will live up to their name, and more importantly, your scrutinizing standards.

Timberlane also takes environmental stewardship seriously. Rest assured that your *oobs* and *aabs* will be the only things that hit our atmosphere, as you gaze at your new shutters.

*Don't see your hue?
We'll custom match any color,
free of charge.*

– The FINEST SHUTTERS *ever* made. –
