So White
TL-01

DREAM IN COLOR.

Color is a reflection of your personality. It transforms a home, much like our shutters. Whether your palette is inspired by an existing shutter, a trim detail or even the flowers in your garden, we have a hue for you.

Timberlane shutters are available in 24 Premium Paint colors designed to complement your home – from shades woven into the fabric of our history, like Antique Bottle Green and Country Red, to more contemporary colors, like Sage Grass and Blue Topaz. If you don't find one that strikes your fancy, we can custom match your shutter color to any paint color you choose. Just send us a sample. It's that simple. Better yet, there's no additional charge.*

*Don't see your hue?
We'll custom match any color.*

Our meticulous artisans blend old-world craftsmanship with cutting-edge technology. While some shutter companies still use saw horses and paint buckets, we have a state-of-the-art painting process. Innovative overhead paint lines, finely tuned curing ovens, and a climate-controlled environment ensure that each shutter has a finish quality similar to that of high-end furniture. This signature process creates a rich appearance and long-lasting luster.

Having trouble deciding on a color? Want to hold a color swatch up to the side of your home? Just call us at 1-800-250-2221 to learn more about our painted color samples.

The color chips shown in this guide may vary slightly from actual painted shutters. We recommend seeing a painted color sample to assist in your decision-making process.

**For orders of five (5) or more pairs of shutters.*

TIMBERLANE

Because every "Welcome Home" moment should be extraordinary

Extraordinary Customization. Extraordinary Service.
